FHPRA series

Washing Machine Filter

Made in EU

General Description:

AQUAFILTER presents FHPRA series - washing machine filter. Are filled with polyphosphate, anti-scale and anti-lime media.

Polyphosphate prevents scale by reacting with dissolved hardness minerals (e.g. calcium carbonate and calcium bicarbonate) and transforming them into harmless, microscopic crystals of calcium orthophosphate. These crystals stay suspended in water and will not create scale build-up in heating elements, pipes, water heaters, boilers, etc.

Moreover polyphosphate helps to deal with iron and all the problems which it causes. Polyphosphates do not remove iron from water. Rather they stabilize and disperse the iron so that the water remains clear and does not produce iron stains.

The FHPRA series filter cartridges require very little maintenance, no backwashing and no salt. Cartridges include pre- and post-filters preventing media particles from being washed out. FHPRA is designed for use with cold tap water. This filter should be installed between water supply valve and washing machine using connection adapter 3/4" male x 3/4" FIP.

Features:

- High quality
- Competitive pricing
- Prevents stains on dishes, glasses, silverware
- Protects washing machine and dishwasher against damage caused by calcification
- Equipped with end filter preventing particulates of filtration media from being washed out
- Environmentally Friendly
- No Regular Maintenance
- Does Not Require Salt
- No Wasted Water or Electricity
- Simple installation—no electrical and drain hookup.
- Well and High Quality Control
- Prompt Delivery
- Competitive Prices
- Eliminates the build-up of scale inside the elements of home appliances

Reduces detergent consumption

Protects expensive equipment from scale formation

NOTE

- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- Water filtration systems can help reduce the presence of contaminants. In addition, some water filtration systems can help reduce the presence of microorganisms or other contaminants with potential health effects.

LIMITED WARRANTY: AQUAFILTER warrants that this product is free from defects in materials and workmanship. This warranty, together with any and all warranties implied by law, shall be limited to a period of one (1) years from the date of original purchase. This limited warranty does not apply to failures that result from abuse, misuse, alteration or failure to properly comply with installation or cartridge change instructions.

We strongly recommend adding to all point of use and point of entry a Pressure Limiting Valve to guard against unwanted extreme water pressure events pressure increases, surges, and water hammer which could occur in the water pipes. Not having one installed could mean that if you ever did have to claim damage caused by a burst water filter system, the claim will be denied.
